

To renew online: Visit www.eticketing.co.uk/walsallfc

Click the Sign In link at the top of the screen. If you have logged in before, please login as normal, using your email address and password.

If you have not logged in before, please choose the option at the bottom of the box which says 'Already have an account? Activate it now.'

You will need to use the Client Reference number out of your season ticket book (this is also available on the renewal letter we sent in February). Type this in the Membership Number box, and your surname in the other box, then Continue. This should activate your existing account and bring up all the information we have stored for you, such as your contact telephone number and email address. Please check that this information is correct before continuing.

Once you reach the eticketing Home Page, you should have a notification to say that you have season tickets to renew. Click on this and follow the on-screen information.

To renew in 10 monthly instalments, choose 'Instalment Plan' as the payment option. The V12 Finance application will then begin.

Ensure you complete the purchase at the end, regardless of whether you have paid in full or made a finance application.

If you do have any issues logging in or have any further queries, please email tickets@walsallfc.co.uk and we will respond at our earliest available opportunity.
